Roller skating is the traveling on smooth terrain with roller skates. It is a form of recreation as well as a sport, and can also be a form of transportation. Skates generally come in two basic varieties: quad roller skates and inline skates or blades, though some have experimented with a single-wheeled 'quintessence skate' or other variations on the basic skate design. Artistic roller skating is a sport which consists of a number of events. These are usually accomplished on quad skates, but inline skates may be used for some events. Various flights of events are organized by age and ability/experience. In the US, local competitions lead to 9 regional competitions which lead to the National Championships and World Championships. 76 pp. English.
