This item is printed on demand - Print on Demand Neuware - Seminar paper from the year 2014 in the subject Sociology - Basics and General, grade: 1,2, Reutlingen University (ESB Business School), language: English, abstract: This paper introduces the theory of social functional systems by Niklas Luhmann who is a great representative of systems theory in sociology. As his theory is based on the concept of autopoiesis, the original autopoiesis concept of Maturana and Valdéra is shortly demonstrated as well as the way of how Luhmann shaped it into a general autopoiesis concept. This general introduction is followed by a detailed explanation of ideas of Luhmann's social systems theory. As his theory is communication-based rather than action-based, the element of communication is further explored. Additionally, the social systems of society, organization and interaction are defined whereas the main focus is on society as social system. Within this context, several subsystems of society are explicated together with their appropriate coding, program, medium and function. Furthermore, the idea of structural coupling which can be described as relation between systems and their environments is implemented. After having a complete picture...
