The work of the District is rapidly drawing to a close, and there is no longer the need of a monthly Bulletin. This issue is a combination of the June and July numbers. In the future. Bulletins will be issued at irregular intervals, and each issue will mark the completion of some important feature of the work. The publication will be composed of articles and pictures similar to those that have made up the past numbers. Persons who have subscribed in advance can leave their subscriptions stand. In the event that a balance is left to the credit of the subscriber when the Bulletin finally suspends publication, a refund will be made of the unused amount. Future numbers will be sold at the same rates as now prevail. The Carrying Out of the Taylorsville Construction Program Time lost through failure to move the Baltimore and dam will be In laying out a building program for a dam--that is, in determining in what order the several operations necessary shall be carried out--the vital factor is perhaps what is known as stream control. At Taylorsville dam, where the stream to be controlled is the Miami river, this question is of unusual importance on account of the heavy flood flow, amounting very commonly to 20,000 cubic feet of water a second, (in 1913 to 125,000 cubic feet a second), which must be carried safely past the unfinished structure. Especially in damming a river which rises...
