Brand New Book ***** Print on Demand *****.This book finds Thomas Flashman, a British army officer, landing on the shores of the United States at the worst possible moment - just when the United States has declared war with Britain! Having already endured enough with his earlier adventures, he desperately wants to go home but finds himself drawn inexorably into this new conflict. He is soon dodging musket balls, arrows and tomahawks as he desperately tries to keep his scalp intact and on his head. It is an extraordinary tale of an almost forgotten war, with inspiring leaders, incompetent commanders, a future American president, terrifying warriors (and their equally intimidating women), brave sailors, trigger-happy madams and a girl in a wet dress who could have brought a city to a standstill. Flashman plays a central role and reveals that he was responsible for the disgrace of one British general, the capture of another and for one of the biggest debacles in British military history.
