Selling goods by mail is at once the most wonderful and the most difficult method of doing business in the world - in short, it is a positive science. Within the scope of this book it has been the writer s aim to present each essential phase of organization in a straightforward and practical manner, and, commencing with a preliminary survey and working right through to the end of the eleventh chapter, every subject is dealt with in correct order of sequence. The result is that, while necessarily incomplete in certain details, the present work covers the ground in a thorough manner, and enables the whole subject to be recognized and appreciated at its true worth.
