Dimensions: 9.7in. x 7.4in. x 0.1in.E-government is critical to the governments ability to effectively communicate with the public. Both Congress and current and past administrations have emphasized the importance of e-government and have put forth proposals to address the challenges associated with this issue. Earlier this year, the Senate passed S. 803, the E-government Act of 2002. To accomplish the goal of enhancing the management and promotion of e-government, S. 803 addresses many of the substantive information resource and management challenges facing the government today. Initiatives contained in this bill represent important steps in creating a government that is more efficient, effective, and focused on citizens needs. Specifically, the bill would (1) secure the transmission of sensitive information in e-government transactions by promoting the development of electronic signatures, (2) protect individuals privacy by requiring agencies to conduct privacy impact assessments, and (3) make government information more accessible to the public. This item ships from La Vergne,TN. Paperback.
